

FOR IMMEDIATE RELEASE

LOCAL VETERINARIANS SET THEIR SIGHTS ON UPPER ARLINGTON FOR THE LONG-TERM

COLUMBUS, OH, (NOV 1, 2016) – Local Veterinarians and Upper Arlington residents, Drs. Adam and Joanna Parson, have acquired a new building located at 1515 Lane Avenue which their practice, [Upper Arlington Veterinary Hospital](#), will occupy beginning spring 2017.

Currently, the married couple own and operate North Star Animal Care in Grandview as well as Upper Arlington Veterinary Hospital on North Star Rd. The two practices will vacate their current buildings and combine operations at the 1515 Lane Avenue location under the name Upper Arlington Veterinary Hospital beginning Spring 2017.

Improvements to 1515 Lane Ave are set to begin in November 2016. The transformation will turn the dated, small office building into a 10,000 square foot veterinary hospital, more than doubling the size of both current offices.

The new building will contain furniture meant for pet use and examination rooms with glass walls for outdoor viewing to improve the overall experience and help to ease pet anxiety. New services will include Nutrition & Weight Management, Behavioral Therapy and a dedicated Veterinarian on staff to care for Exotic animals like reptiles, birds and rodents.

“It’s an exciting time for our growing practice. The new facility will allow us to provide additional medical services and expand appointment times to better accommodate the busy lives of our families, all from within one facility. We are thrilled to have all of our staff together in one place to help write the story for our future,” says Dr. Joanna Parson.

The married couple met while attending The Ohio State University School of Veterinary Medicine, then acquired Northstar Animal Care in 2006 and Upper Arlington Veterinary Hospital in 2008. They reside in Upper Arlington with their 3 children, 3 dogs and 2 cats and will continue practicing Veterinary medicine.

[Upper Arlington Veterinary Hospital and Northstar Animal Care](#) are accredited veterinary practices through the American Animal Hospital Association (AAHA) located in Columbus, OH. More information, including building renderings, can be found online at [ColumbusVetCare.com](#).
